

How to Join

Step 1 | Welcome!

The Women in Finance Program at KU would like to formally welcome you to the joining process! The goal of the group is to promote awareness and information for careers in financial industries and connect female finance students with successful women within these fields. Through speaking and networking meetings, we move to align the goals and interests of student members with those leaders currently in the professional environment. Look below to find out how to join this group of like-minded women.

Step 2 | The Officers

Group Email: KUWomenInFinanceProgram@gmail.com

President: Kaitlin Tucker

Email: k579t604@ku.edu

Faculty Advisor: Laurian Lytle, PhD, CFA

Email: lytle@ku.edu

* Feel free to contact the above officer(s)/advisor for more information on the membership process, otherwise look below for information on how to join automatically through KU's Rock Chalk Central portal.

Step 3 | Join Automatically

- Please visit <https://rockchalkcentral.ku.edu/organization/WIF>
- Click the button that says **Join**.
- We will receive your request via email.
- Within a few days your request to join should be accepted.

Step 4 | Next Steps

After your request to join has been accepted, we will have access to your KU email. With this access we will add you to our list of subscribers to the Women in Finance newsletter. This newsletter will contain announcements of upcoming meetings, what speakers you can look forward to, and special events or opportunities to get involved in. We highly encourage your participation in these events as active members gain a higher likelihood to hold an officer position in the future.

We will reach out to each new member personally with the request for a phone number in order to add each of you to the Women in Finance Program GroupMe where we regularly update event locations and times as well.

We look forward to getting to know you and encourage you to follow our social media accounts for additional methods of keeping up with our busy schedule of events. Rock Chalk!
